Eric Grieshaber *Web Developer*

508.951.8187   eric.j.grieshaber@gmail.com   linkedin.com/in/ericgrieshaber   github.com/egrieshaber

I am a Rhode Island native with a background in music and visual art with a passion for creative projects and thoughtful collaboration. Web development is a new medium with which I plan to explore and continue to grow new skills.

Skills and Languages

Javascript, Ruby, Rails, HTML5, CSS3, SASS, Bootstrap, Handlebars, jQuery, PostgreSQL, MongoDB, Mongoose, Express, Node.js, AWS, Git, Github, Slack

Experience

WEB DEVELOPMENT IMMERSIVE | *GENERAL ASSEMBLY — PROVIDENCE, RI — OCTOBER 2018 - JANUARY 2019*

Full-stack, 13-week, 500+ hour, full-time, web development immersive program, intensive training in a variety of modern programming languages and technologies.

LIVE AUDIO TECHNICIAN AND GALLERY CURATOR | *MACHINES WITH MAGNETS, PAWTUCKET, RI — JANUARY 2016 - PRESENT*

Curator of live audio/visual events varying between electronic music, sound art, and video installation to theatrical performances and rock bands. I have organized dozens of events including national and internationally acclaimed performers, while also taking on the responsibility of live audio technician during all such engagements, and controlling a 16 channel soundboard, balancing the audio live in a professional gallery setting.

MENTAL HEALTH WORKER / ACTIVITIES THERAPIST | *BUTLER HOSPITAL, PROVIDENCE, RI — JULY 2011 - SEPTEMBER 2018*

I have worked over 7 years as a mental health worker in an acute-care environment at highly regarded inpatient psychiatric hospital. During my time there I developed invaluable skills, including multitask problem solving under pressure, while communicating efficiently within a team, providing compassionate care to a client-based population in a safe and therapeutic environment.

DIRECT SUPPORT PROFESSIONAL | *RESOURCES FOR HUMAN DEVELOPMENT, PAWTUCKET, RI — APRIL 2008 - JULY 2011*

working in an art and music based day program for adults with developmental disabilities. i spent time transporting and interacting with a client base, requiring a high level of personal care and assistance, while also developing creative projects and activities.

Web Development Projects

CAPSTONE PROJECT | *FIELD RECORDING LOG* | *HTML - CSS - JAVASCRIPT - EXPRESS - MONGOOSE - MONGODB - AWS*

A full stack web application that allows the user to CRUD their own blog posts and also upload audio files to an AWS s3 digital storage bucket.

TEAM PROJECT | *FACEBIRD* | *HTML - CSS - JAVASCRIPT - HANDLEBARS - NODE - EXPRESS - MONGODB*

I was the leading backend developer of a group of peers in my WDI program. This is a social media app where the user is able to CRUD their own blog posts, while also being able to view other users' posts.

FEATURED PROJECT | *METALHEDZ* | *HTML - CSS - JAVASCRIPT - RUBY ON RAILS*

My first full-stack web application where users are able to authenticate their accounts and create a log of their own, original band names, while also being able to view other users' logs. All user data is formatted via handlebars.js.

FEATURED PROJECT | *TIC TAC TOE* | *HTML - CSS - JAVASCRIPT*

The classic game with JS game logic developed from scratch. User is able to perform all CRUD actions via AJAX calls to a preexisting API.

Education

UNIVERSITY OF MASSACHUSETTS DARTMOUTH

BACHELORS OF FINE ARTS — DARTMOUTH, MA
